Год назад +2 sebelum flashing, apakah perlu di lakukan format smartphonennya karna ukuran framework hampir 1 gb jadi framework yang sudah tertanam di smartphone sebelum flashing ulang 1 gb, jadi ketika sudah flashing memori internya apa tidak 2 gb karna framework ketindih saat flashing,apa bisa terhapus sendiri framework lamanya secara otomatis saat flashing berlangsung karna kita sudah centang wipe data.

exe' and start note (Be sure to close all programs) • Select the Type phone model (Asus Zenfone C Smartphone), Please select press / click the install button.. Bingung masih karna saat install windows lokal dis c nya harus diformat dulu baru bisa di instal kalau di smartphone bagaimana.. • Download the driver to the computer's usb driver Extract files using WinZip or WinRAR, find the file 'PdaNetA4150.. • You should know that if Asus Zenfone C smartphone is powered by a corresponding Mtk processor, here is explained how to install the Usb drivers and Pc Suite for the model of this type.
